

Hello [Name] – My name is Juan, and I recently came across the Job posting for a Data Scientist at *[XYZ company]*. I saw that *[XYZ company]* recently [something interesting they recently did]. As a data scientist, I think that measuring the success of *[something interesting they've done/did]* is an incredibly interesting challenge. I would love to be involved in those types of analyses at *[XYZ company]*!

I plan to submit my application later today and wanted to reach out to introduce myself. I was also curious about the size of the current data science team. Would you be able to shed more light on that for me? Thank you for your time, and I hope to hear from you soon!

Sincerely,

Juan
